- **Jack Gambold,**
Field Engineer

IRWA — Who We Are

- **IRWA's MISSION —**
Since our founding in 1968, our mission has been to provide education and technical assistance to water and wastewater operators, utility boards, clerks, elected officials, and others in Indiana.
- IRWA is a *membership supported, not-for-profit 501(c)(3) organization.* We do not receive funding from any national organization. Our focus is solely to serve Indiana's water and wastewater industry.
- IRWA provides *numerous educational opportunities* throughout the year. The content of IRWA's conferences and workshops are approved by IDEM in order to award our attending operators contact hours.
- Two State Conferences per year (April and December) with sessions for water and wastewater operators, clerks, utility boards, and elected officials. We also co-host an Operator Boot Camp, which is a full day of hands-on and outdoor demonstrations.
- Regional workshops throughout the year held at various locations around the State.
- IRWA hosted events awarded Indiana's water and wastewater operators over 11,450 *contact hours* the last year.
- "*IRWA Utility Manual For Board Members and Other Decision Makers*" promotes a better understanding between Utility Boards and operators regarding rules, regulations, responsibilities, operations, etc.
- IRWA's relationships and partnerships with others allows us to be the *voice for small systems* with regulators and legislators.
- IRWA's *involvement with Indiana Section AWWA* links us to the larger industry picture — both statewide and nationwide.
- IRWA has *vast member resources* to call upon to help communities address any given situation: experienced, certified water / wastewater operators; utility management professionals; backflow specialists; engineers; grant administrators; manufacturers; distributors; equipment companies; well drillers; chemical distributors; testing laboratories; lawyers; water tank specialists; accountants; construction contractors; contract services companies; leak detection analysts; hydrogeologists; and various other water related experts.
- IRWA's website contains a wealth of information and resources for utilities and operators. Please visit: www.indianaruralwater.org.

IRWA — Look for the Windmill

Indiana Rural Water Association's icon, the windmill, has been around for thousands of years and it continues to symbolize IRWA's mission and dedication to the industry that we all so proudly serve.

We ask for your continued support of IRWA, and of each other, as we work together to provide the best water environment possible for our family, friends, and neighbors — today and in the future.

*“That’s when
you’re good even
when nobody’s
looking!”*

IDEM/AWWA – Contracts and Participation

IRWA is currently working with IDEM on many levels:

- IRWA, AWWA, and Horsley-Witten teamed and were awarded a contract from IDEM to conduct Security Tabletop Exercises in each of Indiana’s Homeland Security Districts in 2009.
- IRWA and AWWA teamed and were awarded a contract from IDEM to provide training to facility specific operators (FSO) in Indiana. Our responsibilities are to develop training materials and conduct 24 workshops within the year.

• IRWA/AWWA also completed the following services for IDEM:

- ⇒ Indiana Water Operator Training – This national award winning 4-year program provided training (144 workshops) and reference materials for Indiana’s grandparented water operators.
- ⇒ Drinking Water Guidance Manual and Workshops – This national award-winning Manual was geared toward Small and Medium Community and Nontransient Noncommunity Water Systems serving 10,000 or less. We also conducted 12 workshops to present the Manual.
- ⇒ Toll Free Drinking Water Help Line
- ⇒ 24 Transient Noncommunity Water System Workshops

• IRWA has participated in many IDEM work groups: i.e. Ground Water Rules, Operational Rules, New Well Construction, Operator Certification, etc.

To further benefit Indiana small systems, IRWA staff participates in AWWA, Indiana Section activities and serves on the following committees:

- Small Systems (Chair)
- Water Utility Council
- Education
- Public Information
- Water for People
- Program
- Arrangements
- Awards

SUMMARY

Indiana Rural Water Association has a long history of dedication and commitment to addressing the needs of Indiana’s small systems. In fact, we are celebrating over 40 years of service!! Our mutually beneficial teaming arrangement with the Indiana Department of Environmental Management and the American Water Works Association, Indiana Section has enabled us to serve our industry in new and exciting ways. We look forward to providing many more years of service to Indiana’s water community.
